

# Texas Environmental Partnership Charter

## Vision

To enhance mission readiness and promote environmental stewardship by becoming the nationally recognized environmental partnership among the Texas Commission on Environmental Quality, U.S. Environmental Protection Agency Region 6, U.S. Department of Defense, Texas Army National Guard, NASA-Johnson Space Center, U.S. Coast Guard, and U.S. Department of Energy in Texas.

## Mission

Strengthen the partnership within the state of Texas to promote environmental stewardship as the standard by developing and implementing model initiatives, building trust, and validating results.

## Goals

- Promote open dialogue and environmental information exchange.
- Continue to develop and promote environmental stewardship activities.
- Use pollution prevention and conservation as the preferred environmental alternative to go beyond compliance to enhance mission readiness, reduce generation and release of pollutants.
- Integrate environmental excellence into everyday activities
